

## **Financial Sanctions Notice**

16/06/2022

# **Chemical Weapons**

#### Introduction

- 1. The Chemical Weapons (Sanctions) (EU Exit) Regulations 2019 (S.I. 2019/618) were made under the Sanctions and Anti-Money Laundering Act 2018 (the Sanctions Act) and provide for the freezing of funds and economic resources of certain persons, entities or bodies involved in the proliferation and use of chemical weapons.
- 2. On 16 June 2022 the Foreign, Commonwealth and Development Office updated the UK Sanctions List on GOV.UK. This list provides details of those designated under regulations made under the Sanctions Act. A link to the UK Sanctions List can be found below.
- 3. Following the publication of the UK Sanctions List, information on the Consolidated List has been updated.

## **Notice summary**

- 4. The following entries have been amended and are still subject to an asset freeze:
  - Vladimir Stepanovich ALEXSEYEV (Group ID: 13747)
  - Vladimir Mikhailovich BOGDANOV (Group ID: 14135)
  - Kirill VASILYEV (Group ID: 14136)
  - Alexei Semenovich SEDOV (Group ID: 14138)

# What you must do

5. You must:

- i. check whether you maintain any accounts or hold any funds or economic resources for the persons set out in the Annex to this Notice;
- ii. freeze such accounts, and other funds or economic resources and any funds which are owned or controlled by persons set out in the Annex to the Notice
- refrain from dealing with the funds or assets or making them available (directly or indirectly) to such persons unless licensed by the Office of Financial Sanctions Implementation (OFSI);
- iv. report any findings to OFSI, together with any additional information that would facilitate compliance with the Regulations;
- v. provide any information concerning the frozen assets of designated persons that OFSI may request. Information reported to OFSI may be passed on to other regulatory authorities or law enforcement.
- 6. Where a relevant institution has already reported details of accounts, other funds or economic resources held frozen for designated persons, they are not required to report these details again.
- 7. Failure to comply with financial sanctions legislation or to seek to circumvent its provisions is a criminal offence.

#### **Further Information**

- 8. Copies of recent notices, UK legislation and relevant guidance can be obtained from the Chemical Weapons financial sanctions page on the Gov.UK website:

- 15. Media enquiries about the sanctions measures themselves should be addressed to the Foreign, Commonwealth & Development Office Press Office on 020 7008 3100.

#### **ANNEX TO NOTICE**

#### FINANCIAL SANCTIONS: CHEMICAL WEAPONS

#### THE CHEMICAL WEAPONS (SANCTIONS) (EU EXIT) REGULATIONS 2019 (S.I. 2019/618)

#### **AMENDMENTS**

Deleted information appears in strikethrough. Additional information appears in italics and is underlined.

## **Individuals**

## 1. ALEXSEYEV, Vladimir Stepanovich

**Position**: First Deputy Head of the GRU **Other Information**: (UK Sanctions List Ref): CHW0007 Relatives/business associates or partners/links to listed individuals: Anatoliy Vladimirovich Chepiga; Igor Olegovich Kostyukov; Alexander Yevgeniyevich Mishkin. (UK Statement of Reasons): Vladimir Stepanovich Alexseyev is the First Deputy Head of the GRU (a.k.a. GU). Given his senior leadership role in the GRU, Alexseyev is responsible for the possession, transport and use in Salisbury during the weekend of 4 March 2018 of the toxic nerve agent "Novichok" by officers from the GRU. (Gender) Male Listed on: 21/01/2019 UK Sanctions List Date Designated: 31/12/2020 Last Updated: 18/03/2022 16/06/2022 Group ID: 13747.

#### 2. BOGDANOV, Vladimir Mikhailovich

Title: Major General Position: former Director of Criminalistics Institute. Head of FSB Special Technology Centre (parent entity of Criminalistics Institute) Other Information: (UK Sanctions List Ref): CHW0021 (UK Statement of Reasons): Vladimir Bogdanov is the head of the FSB's 'Special Technology Centre' (the parent entity of the FSB's Criminalistics Institute - Military Unit 34435). There are reasonable grounds to suspect that the Federal Security Service of the Russian Federation was involved in the attempted assassination of Alexey Navalny using a toxic nerve agent and as head of the FSB's 'Special Technology Centre' Bogdanov has responsibility for, provided support for, or promoted the actions of the operatives who carried out the operation. Alternatively, he is associated with those who carried out the operation. Evidence suggests that Vladimir Bogdanov was in close contact with Stanislav Makshakov, the commander of the team of operatives involved in the use of a chemical weapon in the attempted assassination of Alexey Navalny. This designation is part of a further package of designations targeting the FSB operatives directly involved in carrying out the operation. Russian opposition leader Alexey Navalny was the victim of an attempted assassination during his August 2020 visit to Siberia, in which a chemical weapon - a toxic nerve agent of the Novichok group - was used. The activities and movements of Alexey Navalny during his journey to Siberia, from where he intended to return to Moscow on 20th August 2020, were closely monitored by the Federal Security Service of the Russian Federation. Russia had the technical capability to carry out the attack. The Russian State has previously produced Novichoks and would still be capable of doing so. Within the last decade, Russia has produced and stockpiled small quantities of Novichok. It is unlikely that Novichoks could be made and deployed by non-state actors (e.g. a criminal or terrorist group). Russia had the operational experience to carry out the attack. Russia has a proven record of state-sponsored assassination. It is highly likely that the Russian state was responsible for the attempted assassination of Sergei Skripal in Salisbury in 2018 using a similar type of nerve agent. During the 2000s, Russia commenced a programme to test means of delivering chemical warfare agents, including investigation of ways of delivering nerve agents. Russia had the motive and opportunity to carry out the attack. Navalny is a high profile Russian opposition politician who vocally criticised the Russian administration and establishment. He was on Russian territory under surveillance by the Federal Security Service of the Russian Federation at the time of the attack. (Gender) Male Listed on: 20/08/2021 UK Sanctions List Date Designated: 20/08/2021 Last Updated: 20/08/2021 16/06/2022 Group ID: 14135.

#### 3. VASILYEV, Kirill

Title: General Position: Director of Criminalistics Institute, FSB Other Information: (UK Sanctions List Ref): CHW0022 (UK Statement of Reasons): Kirill Vasilyev is the Director of the Criminalistics Institute of the FSB - Military Unit 34435. There are reasonable grounds to suspect that the Federal Security Service of the Russian Federation was involved in the attempted assassination of Alexey Navalny using a toxic nerve agent. Evidence demonstrates that the Criminalistics Institute were the unit responsible for. provided support for and involved in the use of chemical weapon in the attempted assassination of Alexey Navalny. As Director for the Criminalistics Institute Vasilyev was responsible for the actions of the unit responsible. Alternatively, he is associated with the operatives who did. This designation is part of a further package of designations targeting the FSB operatives directly involved in carrying out the operation. Russian opposition leader Alexey Navalny was the victim of an attempted assassination during his August 2020 visit to Siberia, in which a chemical weapon - a toxic nerve agent of the Novichok group - was used. The activities and movements of Alexey Navalny during his journey to Siberia, from where he intended to return to Moscow on 20th August 2020, were closely monitored by the Federal Security Service of the Russian Federation. Russia had the technical capability to carry out the attack. The Russian State has previously produced Novichoks and would still be capable of doing so. Within the last decade, Russia has produced and stockpiled small quantities of Novichok. It is unlikely that Novichoks could be made and deployed by non-state actors (e.g. a criminal or terrorist group). Russia had the operational experience to carry out the attack. Russia has a proven record of state-sponsored assassination. It is highly likely that the Russian state was responsible for the attempted assassination of Sergei Skripal in Salisbury in 2018 using a similar type of nerve agent. During the 2000s, Russia commenced a programme to test means of delivering chemical warfare agents, including investigation of ways of delivering nerve agents. Russia had the motive and opportunity to carry out the attack. Navalny is a high profile Russian opposition politician who vocally criticised the Russian administration and establishment. He was on Russian territory under surveillance by the Federal Security Service of the Russian Federation at the time of the attack. (Gender) Male Listed on: 20/08/2021 UK Sanctions List Date Designated: 20/08/2021 Last Updated: 20/08/2021 16/06/2022 **Group ID:** 14136.

## 4. SEDOV, Alexei Semenovich

**DOB**: --/--/1954. **Position**: Head of FSB 2nd Service **Other Information**: (UK Sanctions List Ref): CHW0024 (UK Statement of Reasons): Alexei Sedov is the Head of the "2nd Service" Unit in the Federal Security of the Russian Federation (FSB). There is reasonable grounds to suspect that the Federal Security Service of the Russian Federation was involved in the attempted assassination of Alexey Navalny using a toxic nerve agent. As Head of the "2nd Service" Unit, Sedov is responsible for, engaged in, provided support for, or promoted the activities conducted by this unit in the FSB. Alternatively, he is

associated with those who did. This designation is part of a further package of designations targeting the FSB operatives directly involved in carrying out the operation. Russian opposition leader Alexey Navalny was the victim of an attempted assassination during his August 2020 visit to Siberia, in which a chemical weapon - a toxic nerve agent of the Novichok group - was used. The activities and movements of Alexey Navalny during his journey to Siberia, from where he intended to return to Moscow on 20th August 2020, were closely monitored by the Federal Security Service of the Russian Federation.
